*Please note that while your card is technically classified as a deferred debit card, it functions just like a standard debit card in its day-to-day usage. This means that it won't offer some typical features that are commonly associated with deferred debit cards. Instead, you can expect it to operate in the same manner as a regular debit card, with transactions immediately deducted from your account balance. However, your card may not be accepted by some merchants who cannot support this card type.

| Changing the cashback offer | We can amend this offer at any time with written notice to you, where the change: is to make improvements which benefit you; or is required by applicable law or regulation. We can amend this offer for any other reason with at least 2 months prior written notice to you. |

Important information about compensation arrangements

We are members of the Financial Services Compensation Scheme (the "FSCS"). The FSCS can pay compensation to depositors if a bank is unable to meet its financial obligations.

In respect of deposits, an eligible depositor is entitled to claim up to the current FSCS limit for

deposits. The FSCS deposit limit relates to the combined amount in all the eligible depositor's accounts with the bank, and not to each separate account.

For further information about the scheme including the current limits, amounts covered and eligibility to claim, please refer to the FSCS website http://www.fscs.org.uk.

Please note only compensation related queries should be directed to the FSCS.
